

ST JAMES'
ANGLICAN SCHOOL

Dear Parents and Students

Welcome to St James' Anglican School. We aim to take you on a journey that will be more than just an education. We are committed to building a community, in which all members are heard and respected. We consider the development of our students in a positive setting as the key priority.

Breadth of experience is a key concept in helping students become confident, valued and equipped to deal with the modern world which is changing at an exponential rate. Academia and outstanding results will help prepare for the future, but a well rounded confident individual will be well prepared to deal with a changing world.

Mutual purpose

To improve student, staff and parent collaboration we aim to focus on this key concept of 'mutual purpose'. Mutual purpose underpins all of our conversations when trying to move forward with potential problems. If all parties can come to the table with the idea that we are all working towards the same outcome- healthy, happy, confident, resilient, well educated children, then dialogue is more likely to be fruitful.

CORE VALUES

The Values that underpin our work and appear proudly on our emblem:

- Wisdom
- Faith
- Service

We aim to display our values with **Integrity** and **Respect** at the forefront of our daily actions.

Integrity can be shown in many ways. We expect our students to behave in ways that respect other students, the staff, the parents, the community, and the facilities that make up our wonderful school.

We demonstrate our **wisdom** by:

- providing quality curriculum and resources
- acting in the best interest of St James' Anglican School staff and students
- behaving in ways that will not impact on the education of other students

We demonstrate our **faith** by:

- acting with care and compassion to others and to ourselves
- showing empathy towards others
- listening and speaking with authenticity
- acting in the best interest of St James' Anglican School staff and students

We demonstrate our **service** by:

- all pitching in to make impossible tasks possible
- recognising and celebrating the positive achievements of our community
- maintaining strong relationships with colleagues, students, parents and the community
- making a positive difference to St James' Anglican School everyday

“We are the Orange Army from the North”

Kind Regards

Adrian Pree
